10 Ways to Use This Book

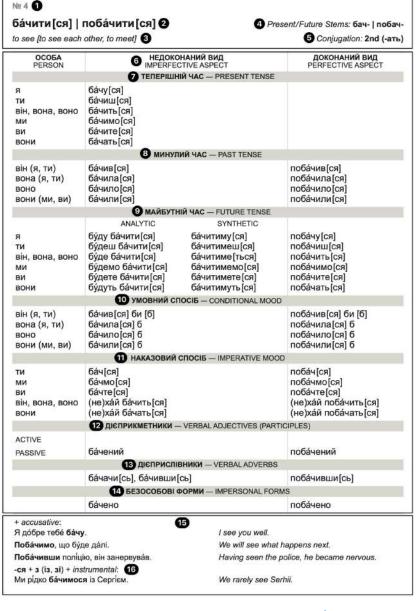

We created this book for different levels and learning styles. With this in mind, we present you ten ways to maximize your experience with this book:

- Look Up Verb Forms: First things first, use this book as a reference for any verb forms you might need when studying or composing a text in Ukrainian. If you are uncertain while speaking Ukrainian and have doubts about a particular form, make a note on your phone to revisit this verb later in the book.
- 2. Deep Dive into Verbs: If you're genuinely committed to Ukrainian grammar, take up this challenge: study two tables from the book every day to master them within a year. For example, you can recite them aloud with their full conjugations and examples before going to bed.
- 3. Check Example Sentences For Context: Enhance your understanding of verb usage by exploring sentences that demonstrate them in natural settings. Create your own examples that are more relevant to your life — doing so will help you remember each verb even better.
- 4. Use it as Your Ultimate Verb Dictionary: Use the index to locate any verb quickly, streamlining your study sessions or quick look-ups.
- 5. Look Up the Perfective Counterparts: For many learners, this feature will be the most valuable in the book — to acquaint themselves with the perfective aspect of verbs. Keep in mind that many Ukrainian verbs lack exact perfective counterparts, but we usually attempt to provide a perfective verb with the same stem for your reference. Learn more about this in the Verb Guide (Chapter 2, page 31).
- Check Possible Reflexive Usage with [cя]: Discover which verbs are commonly used 6. with the reflexive postfix -cq, and understand the meaning of such verbs (translation in [brackets] at the top of the page).
- Swiftly Identify Conjugation Patterns: Unsure about the ending whether it's -уть or 7. -ать in the present or future tense? Quickly check the verb's conjugation type at the top of the page.
- Determine Word Stress in Various Forms: Perfect your pronunciation by knowing exactly 8. where to emphasize each verb form.
- 9. Ensure Correct Usage of Cases and Prepositions: Learn which grammatical cases and prepositions are typically used with specific verbs. These formulas along with illustrative examples will help you construct your own sentences.
- 10. Showcase Your Dedication: Impress your friends and family members by proudly displaying this impressive book on your shelf or desk.

Quick Start

In this section, we provide foundational guidance on using the conjugation tables featured in this book. For a deeper exploration of aspects, tenses, and moods, turn to our Verb Guide (page 18).

Verb Page Structure

Let's examine the example page, which is divided into three distinct sections. Take some time to explore them in detail to make the most of this book.

Part 1: Header (Verb, Translation, and Basic Information)

- 1. Chart Number: Each chart is assigned a number to help organize your studies. Although there are exactly 500 pages with conjugation tables, the book includes many more verbs. For example, on the previous page alone, you will find four verbs: **ба́чити**, **ба́читися**, побачити, побачитися. Now you see why the book is titled "500+ Ukrainian Verbs."
- 2. Infinitive Form: Verbs are presented in their infinitive forms, usually in two aspects: imperfective and perfective. The first, imperfective, denotes a regular action or process, while the second, perfective, indicates a one-time action or an action aimed at a result.
 - Many verbs have exact perfective equivalents (e.g., писати | написати). For verbs without a direct perfective counterpart, we provide a perfective form with the same stem for conjugation reference (e.g., бі́гати | побі́гати). Detailed explanations on using and forming these aspects are in the Verb Guide (Chapter 2, page 31).
 - Note on [cs]: If a verb has a separate form ending in -cs, it is presented as [cs] (e.g., ми́ти[ся] | поми́ти[ся]). This means the table covers the following verbs: ми́ти, ми́тися (imperfective) and помити, помитися (perfective).
- English Translation: We provide key translations, though they are concise and not 3. exhaustive.
 - Note on [cq]: Translations for forms ending in -cq are provided in brackets. For example, for ми́ти[ся], the translation is "to wash, to clean with water [to wash oneself]."
- 4. Present/Future Stems: This stem, which differs from the infinitive stem, is conveniently displayed to assist in forming present and perfective future tenses. Like the infinitive verbs, stems are provided in both aspects: imperfective | perfective.
 - Please note that the stems of certain verbs can vary slightly for different persons due to phonological alternations. Where applicable, we present such alternations using formats like: плач-/плат- (for плати́ти), люб(л)- (for люби́ти).
 - More about verb stems can be found in the Verb Guide (Chapter 1.3, page 20).
- 5. Conjugation Type: This section quickly indicates whether a verb falls under Conjugation 1 or 2, along with the third-person plural ending. This information, coupled with the present/future stem, helps in forming the present and perfective future. If conjugation types vary between aspects, they are indicated as such (e.g., 1 (-ють) | 2 (-ять)). Additional information on two conjugation types is in the Verb Guide (Chapter 1.4, page 23).

Part 2: Conjugation Table (All Tenses, Moods, and Derivatives)

- Imperfective and Perfective Sections: The page is divided into two sections, each 6. corresponding to either the imperfective or perfective aspect of verbs. This organization allows easy reference and understanding of the conjugation patterns for each aspect.
- 7. Present Tense: The present tense is exclusively formed from imperfective verbs. It uses the present tense stem and specific endings determined by the verb's conjugation type. More detailed information about present tense formation and usage is available in the Verb Guide (Chapter 3.1, page 37).

Verb Guide

1. Foundations of Ukrainian Verb

1.1 What is a Verb?

Дієслово (the verb) is a fundamental part of speech that describes an action or state. It employs grammatical categories such as aspect, tense, and mood as well as person, gender and number to convey the meaning precisely.

In Ukrainian, both verbs and nouns play a central role within the system of parts of speech. While nouns often function as subjects or direct objects, verbs predominantly serve the role of predicates.

Присудок (the predicate), usually with the verb at its core, tells what the subject is doing or its state of being.

Consider the following examples:

predicate

» Я **вивча́ю** украї́нську мо́ву.

I am learning Ukrainian.

predicate

Допоможи́ мені́, будь ла́ска!

Please, help me!

From these, it is evident that verbs are the driving force of a sentence. They provide the core action or state, with everything else adding the finer details.

Verbs in Ukrainian can be split into two main types: action verbs and state verbs.

Action verbs are about someone doing something. They cover a wide range of actions like roboрити (to talk), писати (to write) or ходити (to walk).

State verbs describe physical or emotional conditions as well as nature states. Examples are радіти (to be glad), ну́дити (to feel nauseous) or світа́ти (to dawn).

As the central part of speech, a Ukrainian verb has a detailed structure with five distinct forms and several categories that describe it. In the upcoming chapters, we will focus on the most essential aspects that you will need for efficient communication in Ukrainian.

1.6 Morphological Categories of Ukrainian Verbs

Simply put, morphological categories refer to the different ways words can change their form to convey various meanings or functions in a sentence. These changes can indicate things like tense (past, present, future), number (singular, plural), gender (male, female, neuter), etc. Essentially, morphological categories help give words their specific roles and meanings within a sentence.

Have a look at our overview of the morphological categories of verbs with some basic examples. Consider this your handy terminology guide for verbs, aiding in your deeper understanding of the Ukrainian language structure.

About the Author

Anna Ohoiko (Анна Огойко) is a global Ukrainian teacher and the founder of UkrainianLessons.com. Her beautiful native language is Anna's passion, and helping people learn it is her life's mission. She thrives on delving into the depths of dictionaries and linguistic research, skillfully distilling the language into easy-to-understand charts, and simplifying complex grammar concepts. Anna's greatest joy lies in making the journey of learning Ukrainian more accessible and enjoyable for everyone.

Anna was born in 1991 – the year of the birth of independent Ukraine. She is originally from the town of Polonne in Khmelnytska oblast, in central-western Ukraine. Having always been passionate about languages, Anna graduated from Kyiv-Mohyla Academy and got a Master's degree in Theory, History of Ukrainian Language and Comparative Studies.

After participating in the Revolution of Dignity in 2014, Anna decided to dedicate her professional life to popularizing the Ukrainian language internationally by teaching it in the most accessible and exciting way — through UkrainianLessons.com. In 2016, she started the Ukrainian Lessons Podcast, which she designed as a step-by-step Ukrainian audio course for beginners. Since then, it has grown into a comprehensive language program for all levels.

From 2017 to 2018, she taught Ukrainian at the University of Pennsylvania through the Fulbright program. As of 2024, she works from her home office in Sweden, bringing inspiring resources for learning Ukrainian out there to the world.

Anna is clearly a brilliant linguist and manages to convey masses of information in an engaging and exciting way. It means a lot that she has created a resource that is so helpful and accessible for Ukrainian language learners and that includes contemporary Ukrainian culture.

Irene SanPietro from NYC

I decided to listen to one or two podcasts for interest's sake, but when Anna speaks on podcasts, it's as if she's there in person to teach you.

Shavonn Kravets from New Holland, PA

Anna is so charming and engaging, and her lessons are a delightful incentive to revive dormant vocabulary and traditions. Dedicated to the last syllable and motivating. It's always a pleasure to listen to her charming голосочок.

Rahneda Breker from the United States

Anna's sense of humor and her love of her culture comes through in the podcasts and makes the learning experience fun. Even though I don't usually eat beets, I am now eager to try the red borscht!

Mary Margaret Perez from Watsonville, California
